

1/1

TABLE 1

Fig. 1 Effect on sciatic nerve ligature

8 rats/group; mean \pm SEM; * $p < 0.05$ vs. control, ANOVA followed by Dunnett's test
 Pain threshold of normal animals of equal weight/age = 42.2 ± 2.88 g

Fig. 2 Effect on diabetic neuropathy

8 rats/group; mean \pm SEM; * $p < 0.05$ vs. control, ANOVA followed by Dunnett's test
 Pain threshold of normal animals of equal weight/age = 245.0 ± 3.16 g
